Forsyth County Proposed Return to Play and Tournament Requirements
6-4-20

1. YOU are responsible for ensuring your personal safety and that of your child! If you do not feel
   comfortable attending an organized activity at an FCPRD facility, stay home!
2. If you are sick, experienced any recent respiratory illness, are of “high-risk”, elderly or immune
   compromised, please stay home.
3. You should ONLY attend an activity at an FCPRD facility, IF you’ve had NO signs or symptoms of
   COVID-19 in the past 14 days and have had NO known exposure to someone that has been ill in
   the last 14 days.
4. Temperatures should be checked prior to arrival at an FCPRD facility. Coaches and parents MUST
   ensure that NO one be allowed to attend an event that has an above normal (above 100.4)
   temperature reading.
5. ALL in attendance (FCPRD staff, players, umpires, spectators) should practice social distancing!
   Do not congregate in large groups. Participants and spectators should practice social distancing
   around concession area and while using the restrooms. DO NOT put yourself in a position that
   prevents you from practicing social distancing!
6. Teams attending an event should limited their “group” to 25 or less. We ask that spectator
   attendance at games be limited until further notice. Those who are at “high risk” should not
   attend.
7. Avoid any activities that may require direct or indirect contact (bumping, handshakes, high
   fives, etc) between athletes.
8. No sharing of equipment will be allowed. Participants (players and umpires) should use their
   own equipment and properly sanitize the equipment after every use.
9. Participants should use their own water bottle, towel and any other personal hygiene
   products.
10. All teams will be required to use disinfectant wipes to clean all hard surfaces – benches, bat
    racks, dugout handles, etc.. before and after their game.
11. All teams must remove all items and trash from the dugout/field at the end of their practice.
    Spectators must clear trash from the area around the field and place them in nearby trash
    receptacles.
12. Batting cages are limited to 1 coach and 1 player at a time. We ask that the remaining team
    members and coaches spread out away from the cage and practice social distancing.
13. We ask coaches, players, and spectators to please refrain from spitting.
14. All staff, players, umpires, and spectators are encouraged to wear a mask or other face covering
    until the CDC, State or Federal authorities no longer recommend the practice.
15. There should be no more than 3 players/coaches inside a dugout at the same time. All other
    team members should sit in bleachers allowing for social distancing. Area consisting of
    bleachers, dugouts, and space behind the backstop are reserved for players, coaches, and
    umpires ONLY. All other spectators should position themselves in the area from beyond the
    bleachers towards the outfield down the foul lines. Maintain social distancing!
16. Spectators may ONLY enter area behind backstops to access concession stand or restrooms. Spectators should move quickly into and out of this area and may NOT linger. Additionally, they must maintain social distancing while visiting concession window or restrooms.

17. All team members and spectators must exit the complex immediately following the conclusion of their game to allow participants for the following games to access the area. Postgame team meetings must take place away from game site and should consider maintaining social distancing.

18. Teams “waiting” to play should NOT enter the area between the bleachers and behind the backstop until all participants from the previous game have vacated the area. Maintain social distancing.

19. Until further notice, NO one will be allowed inside (upstairs) FCPRD buildings. Additionally, scoreboards will not be used and will not be turned on during games. Teams must keep scorebooks or Tournament Directors may make other arrangements.

Restrooms that are open will be cleaned regularly throughout the day by FCPRD staff.

During this time, it is recommended that EVERYONE practice social distancing. Wash their hand frequently. Wear a mask when in public. Avoid touching your face, nose, and eyes. Protect the elderly and medically fragile. Prioritize your health. When in doubt, STAY HOME.
